Designed for Complete Experience

“

We have been very pleased with the Examination automation solution provided by Heraizen. It streamlined examination activities right from student registration till result publication and analytics.

A robust and user-friendly educational app.

- **CoE of a Reputed Autonomous Institution**

Our Institution's vision of running a college as a software company was made true by Heraizen. We had evaluated over ten higher education management systems. After thorough research and several demo sessions, we were convinced that Heraizen is the only solution capable of supporting our institution's vision for students and its success...

Heraizen - there seems to be nothing it can't do, transformational!

- **Chairman of a Reputed Group of Institutions**

The ERP has given real-time solutions to the financial purpose like online fee collection, day-to-day transaction reports, details of scholarships, concession amount updates and much more with multiple configurations. We have found it very user-friendly and has great UI. Thanks to Heraizen team for a wonderful software.

- **Administrator, Group of Institutes**
